

Dear SJCS Families,

As part of the education of your children, as well as, a way to generate funds without touching your wallets, we are beginning a recycling project here at the School. The Sixth Grade has begun recycling **old newspapers**, and our entire school will be recycling **aluminum cans** (soda or beer, in particular). Here's how it goes:

1. Rinse out your aluminum cans (just so they don't draw bees or flies).
2. Send them into school in a bag.
3. We'll have volunteer students "crush" them.
4. When we gather enough of them, we'll have a volunteer parent bring them to the recycling facility and we'll be paid for the aluminum we bring in.

This will not produce thousands of dollars, but it WILL add up, and, at the same time, we're benefitting our world, our environment.

Don't forget: we're also recycling computer **toner and ink cartridges**. Staples is giving us \$2.00 per computer toner cartridges. This, too, is a help for us, since we are using the Staples credits we receive to update our laptop computers.

And the Big GREEN Dumpster in the Church parking lot is for recycling **paper, newspaper, cardboard** (please crush boxes before putting them in the dumpster), **phone books, magazines**, etc. Why fill up your garbage cans when we can recycle all this here at school?

Finally, we're still recycling old **cell phones**, any **Frito-Lay** product empty bag and any **juice pouches** (please rinse them out and remove the straw from them). Thanks.

So, spread the news to your family and friends: help our world, help our environment, and help our school.... and you don't even need to spend a dime to do it! Thanks.

God bless!

*Sr. Lou Ann, fma*
